ART Treatment Costs

(Effective July 2021)

The table below provides you with an estimate of the costs associated with an ART treatment cycle at CIVF. Once your personalised treatment plan has been created, you will receive a detailed specific quote so that you are fully aware of your costs in advance.

ART (Assisted Reproductive Technology) Treatment Cycle (Medicare item numbers)	Cycle Booking Fee (Gap Fee) Payable within one week of receiving your quote	Balance of cycle (Gap Fee) Payable on the day your medications are collected	Total Gap Fee	Expected safety net rebate
IVF / ICSI including Embryo Transfer (13200, 13201, 13209, 13215, 13251)	\$800.00	\$6200.00	\$7000.00	\$1775.00 (1 st Cycle of yr.) \$2550.00 (2 nd Cycle of yr.)
Frozen Embryo Transfer (FET) (13218, 13209, 13215)	\$250.00	\$3250.00	\$3500.00	\$780.00
Ovulation Induction / IUI (13203, 13209, 13221)	N/A	\$810.00	\$810.00	\$140.00
Oocyte Retrieval – only if in rooms (13212)	-	-	\$750.00	\$ 90.00
Testicular Sperm Aspiration -TESA (37605)	-	-	\$1250.00	\$ 880.00

At our clinic, each cycle is individualised and there are:

- no restrictions or limits to clinical / embryology services during ART cycles
- no cycle modifications which are not clinically appropriate to your care
- no nurse-only services
- no add-on services and no unexpected clinical / embryology fees.

The standard cycle fees include (where necessary) i.e., no extra fees incurred:

- ✓ All medical and clinical procedures by an experienced clinician
- ✓ Scans / procedures and transfers provided (when indicated) - 7 days per week
- ✓ Intracytoplasmic sperm injection (ICSI)
- ✓ Sperm DNA testing and selection in the cycle (PICSI)
- ✓ Use of embryoscope for embryo monitoring and selection
- ✓ Extended embryo culture up to 5-6 days (blastocyst culture)
- ✓ Micromanipulation procedures on the early embryo (embryo hatching)
- ✓ Freezing of embryos and initial storage period (cryopreservation)
- ✓ Psychology counselling: *Counselling is provided with our clinical psychologist for issues associated with an IVF Treatment cycle – this is covered without any additional out-of-pocket cost. The nurse coordinators are also available to discuss any concerns and we have a patient support group to provide additional advice to our patients.*
- ✓ Second cycle of choice if no viable pregnancy occurs on the first cycle.

Oocyte Retrieval - associated costs if performed in hospital:

- **HOSPITAL FEES**
For patients with insurance, a fund excess may apply (check with the individual fund) Item number 13212.
For uninsured patients, oocyte retrieval is \$1171. (Payable to Sunshine Coast Day Surgery).
- **ANAESTHETIC FEES** ('In hospital' procedures only)
This fee will vary between anaesthetists and duration of procedure.
You can obtain a quote by phoning the Sunshine Coast Anaesthetic Group - 07 5493 4383.

Non-Standard Procedure costs – (required in certain circumstances only)

- **Embryo Biopsy & Pre-Implantation Diagnosis (PGS/PGD):** See Separate Fee Sheet
- **Donor Oocyte / Donor Embryo cycles:** Individualised quote required.
- **Donor Sperm:** \$800.00 (Coastal IVF) \$950.00 (Central IVF)
- **Extra Pharmaceutical Costs:**
Some medications require a private script and therefore you will be required to purchase these at the pharmacy. (Routine ART medications during your cycle and luteal phase are provided by the clinic and are covered by the booking fee)
- **Annual gamete or embryo storage fee** (Frozen embryos / semen/oocytes – irrespective of numbers):
\$300.00 per annum. Reduced storage fees are available for 2- or 5-year storage agreements.
Please discuss with staff for more details.
- **Sperm Analysis + HBA Testing:** (outside of an ART cycle) - \$150.00
- **Sperm Cryopreservation** (Includes storage for short term) \$200.00 – Subsequent samples \$75.00.

The Coastal IVF Guarantee

- ❖ We guarantee that you will not have IVF if you do not require it.
- ❖ We guarantee your cycle will be safely managed throughout by a private clinician.
- ❖ We guarantee no unexpected costs during or after your treatment cycle.
- ❖ We guarantee that if there is not a viable pregnancy from your first standard stimulated IVF cycle, a second subsequent cycle will be provided for you with no additional out of pocket cycle costs - if treatment is within the same calendar year* (see explanatory notes below)

* Explanatory notes / conditions of guarantee:

Only applies when initial cycle is IVF/ICSI Subsequent cycle may be either FET or IVF/ICSI cycle – Medicare items 13201, 13202, 13209, 13218, 13215, 13251.

Viable pregnancy means an ongoing pregnancy confirmed by ultrasound after 6-7 weeks gestational age.

No out-of-pocket cycle costs means your costs after Medicare, Health Fund & Safety Net Rebates.

Subsequent cycle must be commenced within 6 months of initial cycle start date. If the subsequent cycle is in a new calendar year a small out of pocket cost may be required to ensure your safety net rebate is reached.

Exclusions: donor cycles, genetic testing, anaesthetic and theatre fees etc or any services not provided by Coastal IVF.

You may wish to consider Zip Money to help with the immediate costs of your cycle. Ask us for more information.
